

National Honor Society News

February 2nd, 2010

Last Tuesday the National Honor Society, accompanied by Mrs. Shahin Hassan and Ms. Shandana Said, traveled to the Edhi Foundation for Homeless Children to deliver the blankets that were generously donated by the ISOI community and the Spanish Embassy.

While there, we were able to visit with two groups of children; one a young mixed age group that was heading off to Arabic classes, and another group that was composed primarily of older boys whose cricket match we had interrupted. We also were able to speak with the two regional directors of the Foundation here in Islamabad.

Everyone was extremely cordial and appreciative of the blankets. They will be distributed among the children most in need of them, and the Edhi foundation will prepare an itemized list explaining what happened with the blankets. The NHS would be happy to share this information with anyone who is interested.
